FRESH WAYS WITH FLOWERS

Buyer's guide to coffee machines
MEET OUR WATER-SAVING FAMILIES!

City living often means there's no view from the bathroom. But a creative use of glass, together with some minor landscaping and one or two specimen plants, make for a tranquil outlook.

Back to nature

To draw natural light into this ensuite, which is part of the renovation of an old Melbourne home, a window and sliding door comprising panels of clear, opaque and translucent glass were used to open up the bathroom to the outside courtyard. With views of the greenery and the sky, bath time is even more relaxing.

Walls/ceiling: Dulux Extreme White
